Telephone:

Appointments: 01895 488 890 / advice: 01895 488 840

Hillingdon contraceptive and sexual health (CASH) clinics will have limited appointments over the next few weeks as the service moves over to a new electronic record system.

As well as this, as of Wednesday 11 March 2015, we will have a new Hillingdon Sexual Health appointments contact number - 01895 488 890. This has been introduced to make it easier for you to access our service.

For any other advice or information, please use the usual health centre telephone number (01895 488 840) during our clinic opening hours.

Please bear with us at this time, and we apologise for any inconvenience caused during the transition period.

The Sexual and Reproductive Health Clinic at Yiewsley Health Centre offers free, confidential reproductive health and family planning services.

These include [contraceptive services](#) (including emergency contraception), cervical screening, pregnancy testing, abortion referrals, and other related services.

It also offers easy, non-invasive testing for chlamydia and gonorrhoea.
